It would be nice if they combined two of their high country maps (e.g., Mono and Mammoth) by using the both sides of the page. It would save weight and I'd pay the extra money for the convenience. 1 of 1 people found the following review helpful. Great map -- tear resistant and big (nice and easy ... By Coltyhuxx Great map -- tear resistant and big (nice and easy to read). I think this could be five star if they printed something of value on the back -- seems like a missed opportunity. That would be five stars for me. 0 of 0 people found the following review helpful. Need for additional terrain detail By Customer My hike trail (McGee Creek) crossed into the adjacent map to north. Using two maps in the high country and with snow pack obscuring the trail presented a challenge in finding Big McGee Lake. I would have benefited having a 7-1/2 scale map of this higher elevation to extract more information about multiple meadows and their relation to the smaller creeks. Thus, small dots indicating meadows would be useful on the Harrison maps.

This map shows all the High Sierra country bounded by Huntington Lake, South Lake, and Cascade Valley. It shows hiking trails, campgrounds, group camps, RV camps, and pack stations.
