Aires, before crossing the river to Montevideo. This map was very helpful, easy to read and the best one I found during my two month stay in the city. It doesn't include Carrasco or much of the Pardo but otherwise it's great. And the lamination also helps keep its shape for longer and protects it from the rain. 2 of 2 people found the following review helpful. Excelent guide !By Rodrigo Alcides B. RiosThis guide is simple and really focused. There are information about streets and avenues and about the best places to visit in Montevideo.It's important to say that the quality of paper is very good and resistant.Simply Amazing !

Handy laminated suit-pocket-sized map of downtown Montevideo. Scale 1:25,000. Simple accordion design refolds easily. Reverse shows an index of streets and orientation map. Locates points of interest. Includes list of points of interest and useful phone numbers.
