We are planning a road trip to Northern California and Southern Oregon. This book provided no information for Northern California.2 of 3 people found the following review helpful. Great planning tool for packing in a lot of sightseeing in a short timeBy Shahmeer EsmailMy wife and I were moving from San Diego to Seattle and decided to make a road trip out of it.From the planning stage through the end of the trip this book was extremely helpful at giving us concrete ideas of where to go as well as helping us plan a trip that fit in our timeline. With the help of this book we visited LA, Big Sur, San Francisco and Yosemite in only 7 days. For each city and region, there were 1-3 day itineraries which we could easily customize and add to our plan.The only thing I wish it had was more info on the region north of San Francisco like point Reyes or the northern redwood forests.Great guide if you want to plan a road trip quickly and have limited time for the road trip but want to pack in as much as possible.As for our trip, it was one of the best experiences of my life. The book helped us plan the whole trip in advance could spend our time sightseeing and enjoying ourselves instead of worrying about what to do next. Especially great advice on checking out Big Sur which was one of my favourite parts of the trip.0 of 0 people found the following review helpful. Good stuffBy Nick H.Nice overview of California options. Buying one for my fellow travelers.
