David Stanley : Moon Handbooks South Pacific before purchasing it in order to gage whether or not it would be worth my time, and all praised Moon Handbooks South Pacific:

0 of 0 people found the following review helpful. A must-have guide for the South PacificBy Diana E. YoungMy edition is now totally dog-eared and in rough condition, which means of course that it is a great book. I've used it since 2007 when we left on our sailing trip from Vancouver (currently in Australia).This guide covers all the major topics as on overview for all of the South Pacific Islands with Pitcarin Islands being the most easterly and the Solomon Islands being the most westerly.If you only take one book with you while in the South Pacific, this would be a good recommendation. As I love guide books and learning as much as possible about the islands we sailed to, I also got other "destination" guides to complement this Moon Handbook.Diana Young- World Traveler - currently sailing in the South Pacific for six months and #1 Best-selling author of Financial Fitness for Beginners.4 of 4 people found the

following review helpful. a book that changes worlds in the mindBy Paul TrustenI bought this book based upon the previous rave reviews. I guess I wasn't ready to entirely believe what I read in them, but they are true. Usually, when I buy a "travel book," I think of Fodor's or something from AAA. But this is a work of fine literature. It has the stamp of a warrior poet, not just a travel maven. Mr. Stanley delivers crafted lectures in this book, and I feel he is sitting right next to me as I read it. Now, I know he wants me to actually go to these islands myself, but he does such a masterful job of discussing the experience and preparing the traveler intellectually and emotionally for the trip that sometimes as I read it I feel as if I really don't have to get on the plane, that I've been there! Of course, I do plan to go, but with this book I feel as if I am extremely well-equipped to make the journey. The discussions of historical geology, culture, and the extremely thorough descriptions of the islands and their people make this book a genuinely living thing. Sometimes books are titled "The thus-and-such "COMPANION." This book should be called "Your South Pacific Traveling Companion." It is a living thing. 0 of 0 people found the following review helpful. ABOVE ALL OTHERSBy john holman,jr.For years I have perused this book for pleasure. I will never visit these remote and exotic islands, but Moon's guide is surely the next best thing.

From lagoon swimming in the Cook Islands to witnessing the race of the banana bearers in the Heiva i Tahiti festival, travelers will find the best of the South Pacific both popular and obscure in this guidebook. Moon Handbooks South Pacific provides in-depth coverage of outdoor recreation, with specifics on swimming, diving, yachting, kayaking, biking, hiking, camping, climbing, caving, and horseback riding. Complete with helpful maps, photographs and illustrations, as well as useful advice on practicalities such as food, entertainment, shopping, visas, money, health, packing, and inter-island travel, this guidebook offers the tools you need for a uniquely personal experience.

The latest in the batch of Moon Handbooks releases proves again that Moon is one of the finest travel series around. What sets Moon apart from most guidebooks is the attention to detail, and more importantly, a respect for the topic. From the Author Sadly, the 8th edition of Moon Handbooks South Pacific was the last of the series. Changing travel patterns and the many new ways travelers have of obtaining information made producing a 9th edition economically untenable. After the 8th edition was published in 2004, I did produce new editions of Moon Fiji and Moon Tahiti, and much of the text on the other 13 destinations covered in the handbook is available on my website southpacific.org. Although the 8th edition is officially out of print, you'll find that the used copies sold here are quite a bargain, offering 119 maps, 31 charts, and 1,091 pages of information. Feel free to drop me a line through my website if you'd like to get in touch. - David Stanley, Vancouver Island, Canada From the Back Cover Widely traveled author David Stanley knows the best ways to explore this expanse of volcanic islands and coral reefs. High firsthand experience and honest insight will show you the difference between visiting the South Pacific and knowing it.
