**Candacy Taylor : Moon Route 66 Road Trip (Moon Handbooks)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Moon Route 66 Road Trip (Moon Handbooks):

A Great New Guide for Route 66 TravelBy Gill am using this guide to prepare a detailed road trip of Route 66 through the states of Texas, New Mexico, Arizona, and California. Of course, I am also consulting other well-known Route 66 guides and maps. Route 66 is a kind of special trip where the itinerary, sights, accommodations and dining changes frequently, so certain flexibility is needed. Moon's Route 66

Road Trip guide is very much a classical guide such as you might find for any other tourist destination published by well-known firms, with maps, pictures, addresses, phone numbers and prices of sights, hotels and restaurants. Plenty of side trips and anecdotes are included. If I could take only one guide book on my Route 66 trip (which fortunately is not the case), this one would be it. This is a first edition, and I hope that Moon will decide to publish new editions at an appropriate interval. The paperback version is preferable to the electronic version for my purposes. 1 of 1 people found the following review helpful. Mom and Dad's bucket list By Rebecca L. Glass Bought this for my mom and dad who have this trip on their bucket list. It will be invaluable to them during their trip. I have volunteered to take the trip with them as I'm the only one with a smart phone and they'll need someone to assist with the attractions along the way. But I think this book will be enough to take them down the path. 2 of 2 people found the following review helpful. Worth the purchase, but use your GPS too. By Pamela A Ashcraft Book had good info of sites to see. Passenger would have to read and follow. A few local maps but you'll need your GPS or map app. Worth the purchase, just to be sure to capture the sites. I like best the recommendation for which route option is best to take.

About the Author Candacy Taylor is an award-winning author, cultural critic and photographer with a master's degree in visual criticism.
