Ghi-woon Seo, Laura Kingdon : More Making Out in Korean: A Korean Language Phrase Book. Revised Expanded Edition (Korean Phrasebook) (Making Out Books) before purchasing it in order to gage whether or not it would be worth my time, and all praised More Making Out in Korean: A Korean Language Phrase Book. Revised Expanded Edition (Korean Phrasebook) (Making Out Books):

5 of 5 people found the following review helpful. Better than the firstBy M. Smithfunny, embarrassing, and dirty - again. This book is all laughs and a little but of education. Ignore the English romanization is it is the worst I've ever seen. However, the translations and Korean is spot on. If you want to learn some great insults, cuss words, and the worst ways to compliment a women, pick up this book. I can't help but look at it from time to time to see how might I make my buddies crack a smile.This book gets a lot less dirty and more creepy. Pick up lines, greasy compliments, and "come here often" lingo are packed inside. Having said all that, it does contain some good phrases for totally non-sexual situations like taking photos and getting email addresses from friends.It's a cheap book (less than 10 bucks on half.com) which is more than fair. Not bad at all. This book is the sequel but doesn't contain any of the other book's material - it's more like "part two"2 of 3 people found the following review helpful. It's not that dirty - actually it's great if you can read Korean.By Honest ConsumerGreat book (for ME). I can already read Korean and speak it, I just wanted to know some more common phrases and this book does it. It's better than the first book. I actually studied this book, underlining new words and verbs and circling new "ways to say" that I didn't know before. The translations are not literal - that would be impossible if you know anything about Korean. It's categorized nicely. It's not a how to get drunk and F))) book (like the first one and that other white one)... it's just more of how to speak generally like people speak. If you are just learning Korean and are romanization dependent this probably won't work for you in Korea or anywhere else. I mean carrying around this book with you and trying to utter the romanization just isn't going to work. In Korea people aren't going to take time to figure out what you're saying. They have a "hurry hurry" (Bali bali) culture. BUT, if you can read an intermediate amount of Korean and you'd like to read and learn new phrases, then this book is great! I really enjoyed it. And unlike that white book out there (don't buy that one!) it's more than here's how to get F\$*()(\$* and drunk and all that teen-age angst and 20 something desperado - stuff. Wish I'd skipped the white book --- go for the first one of these and this one. Too bad it's called "making out", I understand the double meaning, but the sexual connotation wasn't really necessary or 100% accurate for this book. Enjoy it if you buy it. I have Korean friends (native) who say it's about 90% accurate. (as far as translation goes). Even I correct it here and there. ^0 of 0 people found the following review helpful. Useful sentences for making Korean friendsBy ClementineAwesome book for people who are studying Korean language/culture. I have used many of the phrases in this book to wow my korean friends.

More Making Out in Korea is a fun, accessible and thorough Korean phrase book and guide to the Korean language as it's really spoken.Now in its third edition, this is the perfect introduction to Korean as it's really spokenfrom everyday interactions to basic questions to the language of love. It includes phrases and tidbits of information on a variety of social situations such as eating out, traveling texting, and much more. More Making Out in Korean features a pronunciation guide and basic grammar, as well as guidelines for the use of polite and informal phrases so you'll never put a foot wrong when: Meeting and getting to know people Exploring clubs and bars Getting serious in relationships Talking to friends through social mediaEach expression in this Korean phrasebook is given in Korean script as well as Romanized form to enhance your experience of the language (and help you with "written socializing" on computers and gadgets). Full of colorful slang, straight talk and a little cultural savvy on the side, this book has what you need to get started. Pick it up and get ready to converse.

"A funny phrase book. The difference of this one from the other phrase books out there is that it focuses on slangs specifically relationships/romance slangs." Mykoreancorner.wordpress.com blog"Making Out in Korean Funny book title there huh? What you can learn from here? A bunch of funny phrases, curses and uhm yearh."

Lyryenne.wordpress.com blog"Fun if sometimes inappropriate phrases (but a large reason why it's fun) for studying Korean." Goodreads"Making Out in Korean is a fun, easytouse and comprehensive Korean phrasebook, covering catchy Korean expressions commonly used among native Koreans. With this book, speaking Korean in Korea is no longer a daunting task!"
