Dale Coyner : Motorcycle Journeys Through the Appalachians: 3rd Edition before purchasing it in order to gauge whether or not it would be worth my time, and all praised Motorcycle Journeys Through the Appalachians: 3rd Edition:

3 of 3 people found the following review helpful. Like a Guided Tour By Kevin der Kinderen Good planning book. Mr. Coyner mentions early on one of his favorite roads is Ft. Valley Road near Front Royal, VA. That happens to be my

favorite for a quick, local getaway to unwind. I've had a couple of trips starting out in Gettysburg based on this book. While I didn't stick 100% to the course laid out I did hit the main features and I did hit some nice roads I'd have never found. Dale takes the time to talk about the sights and suggests some places to stop and check out including some nice places to eat. The book refers to a website apparently once run by Mr. Coyner but appears to no longer be in service. No matter, all the needed material to plan out a nice trip around the Appalachians is right there in the book. I'm looking forward to trying out some of the other roads as time goes on. I think the Cumberland area will be next. 1 of 1 people found the following review helpful. This was a great read whether you are interested in traveling by motorcycle ...By BKH
This was a great read whether you are interested in traveling by motorcycle or just reading about the great travels Dale Coyner has had through the Appalachians. He writes with wit and his descriptions make you feel as if you are there with him. Good read and highly recommend. 0 of 0 people found the following review helpful. Five Stars
By Steve Perkinson
Good book for trip planning. Very detailed.

Amish farmers, bluegrass music, Elvis memorabilia, reminders of the War Between the States, the roots of America grow deep in the Appalachians. This completely updated new 3rd edition is a collection of 38 tours through Pennsylvania, Maryland, Ohio, Virginia, Kentucky, West Virginia, and North Carolina, arranged around a series of base camps, with four or five rides plotted from the same spot for convenience and comfort. It features topographical maps for each trip, specific directions, and tips on the best places to eat, sleep, and visit.

"Journeys Through the Pacific Northwest does an outstanding job of uncovering scenic routes through four states and British Columbia. Author Bruce Hansen serves up important details for each exhaustively researched road, like the best places to eat and sleep, and backs it up with intimate knowledge of the region." - Motorcycle Cruiser
"Bruce Hansen is a generous guy. He knows the roads around Washington, Oregon, Northern California and British Columbia and wants to share. The second edition of Hansen's "Motorcycle Journeys Through the Pacific Northwest" reads like a conversation with a friend. Hansen says he doesn't pretend to know every place to stop for a photo or to get a good slice of pie, but he seems to come close. With a palpable enthusiasm for the open road, he urges riders to get out of Portland, to head out along rivers, through forested wilderness or to the coast. The full color photos in this travel guide will make you long for summer. When he's not out riding, Hansen teaches writing through Portland State University." - Oregonian
