livingBy RichI found a few suggestions and some information I had not thought of or read about elsewhere. Some of the information is the same as you will find in many other books on the subject but this one seems to go into more detail in some areas. I'd like even more detailed information about boondocking, technical aspects of various RV's and the systems in them, adding solar panels, etc. but haven't found THAT book yet.0 of 0 people found the following review helpful. very basic without much useful, practical informationBy ConnieMy husband says the book was very, very basic without much useful, practical information.0 of 0 people found the following review helpful.
