**Stephen Stuebner : Mountain Biking in McCall (Idaho)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Mountain Biking in McCall (Idaho):

This 96-page book details 22 mountain biking trails in McCall, Idaho, a gorgeous alpine lakeshore town two hours

north of Boise. Rides include nifty singletracks in Ponderosa State Park, Brundage Mountain Ski Resort (chairlifts run on weekends from Memorial Day to Labor Day), and several expert loop rides to high mountain lakes. Forest environment features cool, shady trails near a number of hot springs pools. Hurry and check out this area before it gets discovered. Bonus: Entertaining short story about an epic mountain bike ride using the latest terminology in mountain bike lingo.

Finally, an extensive guide to bicycling in paradise. McCall-area trails vary from gentle forest paths flanked by morel mushrooms and huckleberries to technical rock routes and thrilling steepes. Here's 22 reasons to quit talking about it and ride! -- Kerry Greene, Mountain Cycle and Snowboard, McCall  
From the Publisher: Best kept secret mountain bike destination in the West. From the Author: It's hard to say enough about mountain biking in McCall. Wilderness-like trails in the Payette National Forest are world-class, and if they were located in California, they'd be closed to mountain biking by now. McCall is an attractive town of 4,000 residents next to a clean lake that's popular for sailing, swimming, canoeing and fishing in the summer months. Author Stephen Stuebner and his family love to camp outside of McCall during the summer and ride all day. Author Roger Phillips lives in McCall, that lucky fella.
