Paul W. Papa : Mountain Biking Las Vegas and Southern Nevada: A Guide to the Area's Greatest Off-Road Bicycle Rides (Regional Mountain Biking Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Mountain Biking Las Vegas and Southern Nevada: A Guide to the Area's Greatest Off-

Road Bicycle Rides (Regional Mountain Biking Series):

Mountain Biking Las Vegas and Southern Nevada is the real treasure found within Nevada, detailing over 40 of the greatest off-road mountain bike rides in the Las Vegas valley. Each route includes complete point-by-point miles and directions, map, text description of the riding area, GPS coordinates of the start/finish point, and full-color photos of the ride's features. More than just a trail guide, Mountain Biking Las Vegas gives the reader important information, such as local restaurants, restrooms, lodging, Las Vegas natural history, fauna, climate conditions, bicycle shops, other facilities for cyclists, and community resources.

From the Author I have been waiting for several years to write this book and was so happy when Falcon Guides finally gave it the green light. There is such a huge mountain bike community in Las Vegas and so many people who come here have no idea the amount of trails in the valley--many of them world-class trails. The best part about mountain biking in Las Vegas is that it is ever-expanding. More and more trails are being developed and as they become "legal" I'm looking forward to including them in future editions. Sure, Vegas has gambling, drinking, and all that "strip" stuff, but we also have huge recreational opportunities. So if you want to see the other side of Vegas, grab a mountain bike and let's go!
