The trails are no longer exactly as this book describes. Nonetheless, a pretty good bike for mountain biking LA county, especially in the Pasadena area. I wish the author would create an updated version. 7 of 7 people found the following review helpful. Wonderful book for local and visiting mountain bikers By Robert Gonzalez This is a wonderful mountain bikers guide to the San Gabriel Mountains, north of Los Angeles. Visible from the entire LA basin, A 45 minute drive from virtually anywhere in L.A. County will get you to this range. Some of the trails are for beginners, but most are advanced, and very strenuous. Very good directions and maps guide you along with tips for conquering these trails. A very good source of info for newbies and vets alike.
